# TRANSACTION TABLE UPDATED WITH HIGHEST BID:

The screenshot displays the Supabase Table Editor interface for a project named 'GeoJose19's Org'. The interface is in dark mode. On the left, a sidebar shows the 'public' schema with a list of tables: 'bid', 'products', 'transaction', and 'users'. The 'transaction' table is selected. The main area shows the table's data, with one record visible. The record has an ID of 29, a 'created\_at' timestamp of '2023-11-23 06:35:04.611335+00', an 'amt' of 300, and a 'product...' value of 21. A warning banner at the top of the table area states: 'WARNING: You are allowing anonymous access to your table. Enable Row Level Security.' The bottom of the screen shows a Windows taskbar with the date '23-11-2023' and time '12:06'.

ID	created_at	amt	product...
